Sydney, Australia

SUMMARY

I'm a recent graduate of Computer Science at the University of New South Wales, and I am interested in Cyber Security and Full Stack Development. In my free time, I like to participate in competitive coding, CTFs, play basketball, and watch movies. I've used several programming languages, but I am most familiar with Python, JavaScript, HTML, CSS, and C.

EXPERIENCE

Software Developer

Self-Employed

📅 01/2025 - Present

- Currently exploring and developing a Jewelry Software with 3D capabilities and AR/VR for Necklace and Rings.
- Utilised ThreeJS, Vue Framework, Tailwind CSS, and experimented on several AR/VR Jewelry APIs.
- Currently making a Python program to Visualize Jewelry to Image.

Full-stack Developer

Voyage

📅 02/2024 - 12/2024 📍 Sydney, Australia

- Utilise Next.js, Ant Design, Tailwind CSS, React Query.
- Leverage Node.js, TypeScript, Docker, MariaDB.
- Develop search and filter feature to search for jobs in Voyage.
- Design UI and do UI fixes for students and recruiter job page in Voyage.
- Design and develop custom user analytics for admin dashboard.
- Implement HubSpot API, Google Maps API, OpenAI API.

Full-stack Developer

Meyd.it

📅 05/2023 - 08/2023 📍 Sydney, Australia

- Collaborated with a team of creatives to develop and maintain the Meyd.it fashion marketplace.
- Leveraged a full-stack architecture based on micro-services, using NextJS (Typescript) for frontend development and AdonisJS for backend development, all hosted on AWS.
- Followed Agile/SCRUM methodologies to manage project timelines.
- Successfully implemented multiple feature improvements and bug fixes, leading to a more robust and user-friendly platform.
